SkyPath

- The Auckland Harbour Bridge Pathway Trust, a private organisation, is proposing a tolled cycleway/walkway under the clip-on on the city side of the Harbour Bridge, with entry/exit points at Westhaven and Northcote Point. The St Mary's Bay Association is working with the Westhaven Marina Users Association and the Northcote Residents Association to address some major issues, in particular an acceptable design for the entry/exit portals and associated facilities and the impact of an estimated up to 5000 walkers and cyclists per day, at peak period, descending into Westhaven marina and Northcote Point. Before we engage in further consultation we are awaiting the results of a due diligence review by Auckland Council and the possible funder for the proposed SkyPath.

The formal AGM will follow these presentations. **Agenda** - see reverse side

Please make an effort to attend this meeting and understand these issues now. Don't complain when it's too late to alter decisions.
